ATCB will disclosure pursuant to FCC Public Notice DA 04-1705.
Sincerely, By: Yu Xiu yong Quality Man (Signature/Title)	Xiuyong Yu(Print name)

<sup>The asterisked items (*) require further justification before permanent confidentiality will be allowed. These also currently require review by the FCC under their Permit-But-Ask policy before the grant is issued and can delay completion of an application. Further justification should be added to the note above. One such example for a potted device would be: "The EUT is FULLY potted using a non-removable epoxy based material. Removal of potting material causes irreparable damage to internal circuitry. See photographs exhibits that outline the device before and after potting."

Please refer to http://atcb.com/publicdocs/Memo-Short-Term-Vs-Standard-Confidentiality.pdf for complete details.</sup>
